

## 10 Ways to achieve your target grade in Design Technology - Graphic Products

To be successful in your GCSE graphics accept the following as FACTS!

- You may think you know everything but you DON'T!
- You may think that you do not need to know every thing, YOU DO!
- You can not start revising 48 hours before the exam and be successful.
- You need to start revising NOW!
- Reading through a topic once is not revision.
- Read each topic at least four times.
- Leave at least a couple of days between each reading
- Look at the revision timetable for graphics before lesson so that you come prepared.
- Use lesson time constructively by asking questions on ANYTHING that you are not sure about.
- Complete all homework tasks by the required deadline.
- Basically, do what you are asked, when you are asked, by when you are asked.
- Cream egg to the first person to tell me what is wrong with this list.
